Introduction

This folio of transcribed documents is the result of work in January to March, 2002 by Jessica Norman. Transcribing these documents was part of a research project that investigated the role of Margaret Marshall Saunders in the development of supervised playgrounds in Halifax, Nova Scotia: between 1906 and 1914.

Margaret Marshall Saunders was a Canadian literary figure known primarily for her children’s books. In 1910 her novel, The Girl From Vermont – The Story of a Vacation School Teacher, was published. During the decade before the publication of this book, she had been active in the Halifax Local Council of Women’s Vacation Schools and Supervised Playgrounds Committee and had been a leader in the establishment of playgrounds in Halifax. This project investigated Miss Saunders’ contribution to the development of these playgrounds against the backdrop of her writing The Girl From Vermont. The time period of the research was 1906 (when the Halifax playgrounds were established) to 1914 (when Miss Saunders moved to Toronto).

The collaborators on this project were Susan Markham-Starr of the School of Recreation Management and Kinesiology and Patricia Townsend, University Archivist. The project followed up on several previous projects by Susan Markham-Starr that investigated the development of parks and playgrounds in both Prairie and Maritime cities, and the role of interest groups in the development of national recreation services. Patricia Townsend’s expertise for and interest in the project came from her position as Archivist in charge of the Margaret Marshall Saunders fonds at the Archives and her interest in women’s history. The project used the following resources:

- The Margaret Marshall Saunders fonds at Acadia University
- The Halifax Local Council of Women fonds at the Public Archives of Nova Scotia
- The National Council of Women Yearbooks collection at Mount St. Vincent University
- The National Council of Women fonds at the National Archives of Canada
- The Margaret Marshall Saunders fonds at McMaster University
- The Margaret Marshall Saunders fonds at Mount Allison University
- The Lorne Pierce fonds at Queen’s University Archives. Lorne Pierce was Editor of The Ryerson Press and his papers include correspondence with many Canadian authors, including Miss Saunders.
- Pre-1906 material that was already been transcribed as part of two Acadia theses:
- Several previously published articles and chapters about Saunders by Blakely, Elson, Gerson, Pomeroy, Waterston, Watters.

Dear Miss Saunders,

We enclos [sic] copyright account herewith.

The sale of your book “THE KING OF THE PARK” is dropping off and it occurs to us that it might be well to bring out a series of books for Young People that could be retailed in department stores at 50 cts. In order to do this we should be obliged to get up a special edition with new and attractive binding and sell the books at a very low wholesale price. We could not afford to make the cheap edition unless we could count on a large sale and have the co-operation of the authors in the matters of royalties. We would be willing to pay a royalty of 5 cts. per copy in place of the regular rate. We feel sure that it would result in a largely increased demand and be to our mutual benefit as we tried the experiment on a similar series last season with very gratifying results, the sales being three or four times the usual number.

From inquires already made, we feel sure that our authors will be willing to make the arrangement and if you wish to have your book included we shall be glad to hear from you at once as we are now making up our list.

Yours very truly,

Dear Dr. Rowland

Your letter of the 2nd was read & I mailed the MS to you this morn. [the MS has just been read and as soon as I put a few finishing touches to the story I will mail it to you.]

I have been animated by several things in writing this story – first the <...> small salaries paid to Baptist ministers all over this continent. 2ndly the Playground Movement that is receiving so much attention fr friends of children in American and Canadian cities and 3rdly the carelessness [?] of Baptists who don’t [?] seem to think it matters what church they go to or what beliefs they hold. Perhaps I have not said enough on the latter score but the average reader does not want one to preach too much in a story and of course I wished this to be suited to boys and girls. Don’t take the story if in any way it is not suitable but I am hoping you will like it as a secular firm wd. probably cut out the Baptist references.

As to terms – I have not my contracts at hand, & I can’t remember on what terms you published my last book. If you decide to take this story <...> what you offer & believe me

Miss Marshall Saunders:
Dear Madam:

In reply to your communication of the 7th I am glad to hear that your cardinals are breeding. My birds are not doing any thing this year. The aviary and parrot house was just about ruined [?] on June 10th. We had a terrible hail storm which took out all of the glass and left things in a terrible shape. I had pretty good prospects for breeding as many of the birds <…> nests but we were so late in getting repaired that my hopes are ruined for this year.

About feeding your young bird.

Mocking bird 4 parts
<…> eggs 1 part
hard boiled egg (grated fine) 2 parts

Add water enough to make a paste thick enough to be picked up with feeding forceps.
The feeding forceps which I use are the ordinary spring [?] forceps, with the sharp points filed off.

The bird that <…> its food out of the mouth probably had sore throat. I have always found when they did that that there was very little chance of their living.

The reason that your young cardinals left the nest so early, was probably because they were frightened by the other birds as in <…> wild state they do not leave until they are fully fledged, and able to fly.

The two <…> got safely over their trouble and are now doing nicely.
The treatment which you used is all right after the birds are three weeks old, but I believe you will have stronger birds by using the food which I have suggested for the early stages. Indeed it is a great care. I have brought up about 40 youngsters this year and had my hands full some of the time.

I have not been troubled by the pigeons on top of the aviary this year. I have the top shaded dark green, so the birds are protected from the sun and at the same time can not see what is
going on over head.

I should be glad to hear how your little family is getting on and if I can help you along
I shall always be very glad to do so.

Hoping that your little fellows get along nicely, I will close.

Yours truly

Dear Miss Saunders,

[margin] Please excuse paper. I am just out of it and in a great hurry.

I am going to do something which most people would think queer – and it is – but you understand people and things, and I know you won’t mind. Mr. & Mrs. Nugent [?] are going to Confession this afternoon, and will not take dinner at all, for some reason. We did not know this until just now. They will be dreadfully disappointed not to be able to see you, and it will seem strange to have you when they are away, for they like you so much and want to see more of you – I wonder if you would mind coming on Tuesday or on Wednesday instead? This seems to be a fast day with them, and “after confession” means “retreat,” I am told – you will understand, I know. I wouldn’t have them know this for anything in the world. I told Mother I could explain and that you would not mind at all. What we want you to do is to call Mother up by telephone, and say that you have found that you cannot come to dinner this evening. Then they will feel that they are not causing you or us any inconvenience. They haven’t been to Confession since they came, and it seems to mean much to them. I have been thinking over what you said to me. I don’t know whether you learned to know people by studying them or whether you were “born that way,” but you see far, and see right through things. I hadn’t any right to bother you with my puzzles, but I am glad I did, though you made me think rather badly of myself. I won’t do anything in a hurry. Will you come on Tuesday or on Wednesday, whichever suits you?

[margin] Will you call up as soon as you can?

We are planning to issue a new edition of “Beautiful Joe.” For this edition we intend to make new plates and prepare new illustrations. We shall also give it a new binding. There has been great demand on the part of the book trade generally for a better edition of this classic of animal life. We shall still retain the 50 cent and the Phoenix Editions. I should like to have your suggestions about the illustrations for the new edition and the style of binding, size of type, etc.

Dear Mr. Roe,

Your letter of February 23 was read and I am very glad to hear that you are planning to issue a new edition of B. Joe. Whenever I am asked abt. Illustrations, cover designs, etc. for my books I say “that is not my specialty – I wd. be happy to suggest but in that case wd. come into competition with experts who have made a study of such matters.” [For instance as to binding and type you wd probably know much more abt what is in <…> than I do. I think I can rely on you to choose something in good taste.]

I prefer to have artists read my books and choose for themselves the best scenes to illuminate. They have more <…> in carrying out their own plans [?] than they would have in carrying out mine. So I wd. say, “Have just as many illustrations as you can afford as they popularise a book but let the artist do the selecting.”

As to binding and type I am once more not an expert. I think I wd. prefer to rely on your taste in the matter as you will have a better knowledge than I have of what wd. be popular and possible to do.

I often have cover designs and proofs of illustrations submitted to me after others have chosen. The most careful artist is apt to make mistakes. An author may give a heroine a <…> in her dress. The artist sketches only five. Only the keen eye of the author wd detect the mistake. Several times I have been able to assist artists in this way.

I thank you for everything and I wish I had sufficient knowledge at my command to advise. I shall wait to hear what you say and with best wishes for the success of the new edition I remain,

Very sincerely yours,

M. Saunders

Dear Miss Saunders:-

No doubt you have already heard from Mr. Charles Copeland, with whom we have been corresponding relative to illustrating the new edition of “Beautiful Joe.”

I have been re-reading the book to my little boy, who is eight years old, to our mutual enjoyment. It occurs to me that you might wish to make some changes in the new edition, as we shall reset it. We shall print it in a larger type and a larger page. I notice one or two typographical errors which we will correct. You have brought in nearly all of the animals which appeal to children with possibly the exception of the crow. I wish that you might have given a chapter to “Jim, the black one.” As a boy I was always very much interested in animals and your story makes a very strong appeal to me on that account. Among pets of almost every species I had a very remarkable crow. I do not think that the crow and his wonderful ways have ever been given a large enough place in the animal biographies of which we have had so many recently.

We have not yet begun to reset the book and will not undertake it until I hear from you. With best wishes, I am,

I am familiar with his work and know that he will make no mistakes. [He is to have a moose illustration and will as he always does give his deer split hoofs. I think one B. Joe artist]

I am very glad that your little boy likes B. Joe. I had copy of the book in which I had noted errors but can not find it. I will re-read the story and note small errors. [I suppose you would not wish to remedy large ones – I mean by that too long sentences, faults of construction. Of course I wrote that book 12 yrs. ago. It is not written…]

I think your suggestion an excel lent one with regard to the crow. Strange to say (?) I am just writing a story abt. pets I have had since Joe came out. Jim my broken winged crow is the first one. I will write and send you a short chapter on him and if you have any anecdotes abt. yr. crow I could add them otherwise the chapter may be too short. I will look over my notebooks and see what I have abt. crows and if you can let me have something (?) I may make <…> without (?). [But I wd. like to have something true. In reading “Beautiful Joe” I find on pages 197 and 208, the word “Fleetwood” instead of “Fleetfoot” used three different times. I have taken the liberty of asking our compositor to make the necessary change. Your letter of May 27 was read, also the crow MS. I am delighted with it and as you have written so <…> I have used some of my own material I will keep that in the other book.

I am greatly obliged to you for the crow anecdotes. In writing B. I shd. like to have seen that bird and am so glad that his life ended happily. I feared a tragedy at the end.

The MS was well written but of course I had to change the style to make it fit into the book. I am much pleased that you noticed the Fleetwood mistake. The name shd. be Fleetfoot as you say. Dear Mr. Roe,

Your letter of June 1st was received. I will send at once some sketches of my life to use as you wish.] As for advertising “Beautiful Joe” I hesitate about offering any suggestions to you. However I might ask you a question. As the book ha [sic] been quite well advertised in the humane and religious press, how would it do to advertise the new edition in publications that have never before had it in their columns?

Are you doing anything about selling the new edition in England? It might take there as English persons are critical about illustration and the new ones are sure to be good.

I have not arranged about the publication of the story of bye [sic] bir [sic]. [I don’t care to say anything about publication until a story is nearly done.] Certainly I will take pleasure in submitting it to you when I fiish [sic] it. That will be quite soon.

Speaking of issuing a new edition od [sic] “Beautiful Joe” reminds me of transactions with Mr. Strien who was so much interested in the firs [sic] editions of the book. I have not heard anything of him in a long time and suppose his health may have caused him to resign. He looked rather run down when I saw him last. Can you tell me anything about him?

[I should like to add with regard to the story of my birds that yo [sic] probably know as well as I do that things have changed somewhat in the humane literature world since I wrote “Beautiful Joe.” There is a great outcry now from the President down against writers of my school. I consider that Mr. Long is being persecuted. I believe that there are starger [sic] happenings in the animal world than the President or John Burroug [sic] have dramed [sic] of. However there is some truth in the assertion that children should not read too many tales where non-human animals are endowed with human intelligence. For example in proposing “Beautiful Joe” for supplementary reading in a school a severely practical teacher might object to the dog telling the story in the first person. Of course man [sic] incidents in the story are true but a conversing dog could never be true to life so these persons say. Therefore out of deference to these new prejudices, and also because it suited me better to do so, I have kept...
everything in this latest book strictly veracious.

With kind regards,

Yours truly,

M. Saunders

We are planning to issue a circular, giving a short sketch of yourself as well as the book, “Beautiful Joe.” We should like very much to have a copy of your latest photograph for use in this circular.

You ask about the circulation of the book. Over half a million copies have been sold and we shall so advertise when we are ready with the new edition.

In reference to the English edition, would say that we have done nothing as yet, but will take the matter up with our London agents as soon as we have a dummy ready to send them. The illustrations for the chapter headings came in to-day and are now in the hands of the engravers.

I note that you have not yet made arrangements for publishing your story of the birds. I should be glad to have the MS. when it is finished.

In reply to your inquiry about Mr. Strien would say that I understand his health is very poor indeed. It has been difficult for him to attend to business for some time on account of his physical condition. He still lives here in Philadelphia.

We shall be glad to have the book containing the sketch of your life which you speak of.

Did I write you in regard to the title page? The artist wished to know if we intended to make any changes in the title page. If you have any suggestions to make about this part of the book, I wish that you would communicate direct with Mr. Charles Copeland, 49 Studio Building, Boston, Mass.

I have not yet finished reading “Beautiful Joe” to my little boy and he continues to be deeply interested in it. He is very much pleased with the idea that we are going to publish an illustrated edition. I have told him that I thought I could get him a copy of the new edition with the autograph of the author.
We hope to have dummies of the new edition ready to send out to the trade within two weeks. I am planning to advertise it widely and our Branch Managers are all very much interested and will give their time and energy to pushing its sale within the trade.

Very truly yours,

Dear Miss Saunders:-

It just occurs to me that it would be advisable to have a new introduction or rather another introduction in addition to the one by Hezekiah Butterworth. Or possibly it would be well to write a new preface instead. I will leave that, however, to you. Whatever is done should be done without delay [sic]. Some reference as to the artist who is illustrating the edition, also to his record and possibly some of the books which he has illustrated might be advisable. Also a statement in regard to the remarkable circulation of the book – 500,000 copies and over and possibly some extracts from letters from well known people that you have no doubt received in regard to the book.

Hoping that this will find you enjoying the best of health, I am,

Sincerely yours,

Dear Mr. Roe,

Yours of the 12th has just been read. If I were you I wd let the Hezekiah Butterworth introduction stand. I cd not bear to give that up and knowing the estimation in which he was held I think it a good thing for the book. I really don’t think another preface necessary. [As for Mr. Copeland I think the correct thing wd be to put in the title page illustrated by Chas. Copeland. If I were [?] you I wd put nothing more either abt the artist or the circulation of the book in the front but in the back. I do not see why you shd not do as many publishers <…> put in extracts fr reviews, circulation information etc. I will prepare something and you can vary it or add to it or subtract as you like.]

I enclose something that might go on a page in the front of the book but if it does please be sure to mark it publishers note. The language is not my own in it. I am quoting. Change anything you like.

If you want the extracts fr letters of prominent persons of course you will put them in the back of the book. The publishers note cd go there too if you think best.

Thank you for telling me abt the circulation of B. Joe, also for the news abt. Mr. Strien. I have the profoundest sympathy for anyone who loses health. It is the greatest blessing in the world to be well and strong. I sincerely hope that Mr. S may recover.

I mailed a book to you yesterday containing a sketch of my life. I hope you will keep the book. I have another copy.

I will write Mr. Copeland abt the title page. If you will let me have the little boy’s name I will write him a note that he can paste in his B. Joe. I often do this for my boy and girl friends.

When you get yr dummies ready will you send me one.

I wish when the new edition of B. I wish too that you wd send a copy to Miss Sara J. Eddy, 4 Bell St., Providence, R.I. and tell her that you wd like to have her opinion of the new edition. You might use what she says for advertising purposes. She is much interested in humane work and used to and I suppose still does spend a great deal of money in distributing humane literature.

Another person to whom it wd be <…> to send a copy is Dr. Wm Stillman, Pres Am Humane Assn, 287 State St., Albany, NY. You might tell him that you would like to have his opinion of the new book.

Your favor of the 14th inst. reached me to-day. We will return to you the newspaper clippings as soon as we have finished with them. The owl photograph is particularly good and I think will suit our purpose very well indeed.

The book which you sent me, containing a sketch of your life, has been received and I have been very much interested in reading the account contained therein. I shall be very glad indeed to keep the book and wish to thank you for giving it to me.

My little boy’s name is Charles Kohlsaat Roe. He will be delighted, I know, to have a note from the author of “Beautiful Joe.” We have finished reading the book and he is anxious now to get a copy with Mr. Copeland’s illustrations. As soon as the dummies are ready, I will send one to you.

The suggestions for title pages have been received from Mr. Copeland and we have returned them to him with a few changes. I have taken out from under your name the line which reads “Author of My Spanish Sailor.” It will be well, perhaps, not to put anything in place of this. “Illustrated by Charles Copeland” will appear on the title page as well as the words, “New and enlarged edition.”

I have your second letter of the 14th inst., enclosing a publishers’ note which you suggest. We will use this, if not in the book itself, at least on the paper wrapper.

I did not wish to convey the idea that we thought of leaving out Hezekiah Butterworth’s introduction, but my suggestion was that you write another note of introduction to be added to the preliminary matter of the other edition. We will use extracts from letters of prominent persons in the circulars of the book and newspaper advertising.

Six of the nine full page illustrations reached me yesterday. They are very good indeed and I am sure you will be greatly pleased with them. The chapter headings also are excellent. We have most of them engraved and some of them are printed with the text. The new edition is going to look very fine. I expect to be able to send you a dummy containing
most of the illustrations in a very short time.

I shall be glad to see that they are forwarded as soon as the book is ready and I shall also be pleased, at your suggestion, to write a personal letter to Mr. Arthur Piers, Miss Sara J. I want to do everything that is possible to give the widest circulation to the new edition.

The new chapter which you return is received and we are glad to know that you are pleased with it.

The last of the illustrations have been sent by the artist. If they are as good as the others which he has forwarded to us, we shall be quite satisfied. I believe that the new book will meet with the approval of the book buying public. I wish that you could see the new frontispiece. It is particularly good. We shall make an extra window display, using the original illustrations as soon as the book is ready. Later we shall send this display to our different Branch Houses, where a similar exhibit will be made in their windows. We shall also endeavor to get several of the large booksellers of different cities to make a window exhibit of this sort.

[I know you will be sad to hear that dear Billy, one of the dogs in Beautiful Joe, has just died.] Every created thing likes to be kindly treated. When I was a young girl in France I used to whistle to the little grey lizards lying sunning themselves on the walls. They would stop to listen and would open and shut their eyes with pleasure [?]. My Dear Miss Saunders:

I spent a very pleasant afternoon yesterday, or a portion of it, in company with your new MS., “Among My Birds.” It carried me back to the time a number of years ago now when I did the same thing with “Beautiful Joe.” Let me say that I had very much the same impression that then came to me. It was not literary character or finish of the work that held me, but, if I may so say, the human interest imparted to the varied inhabitants of your home aviary. I became intensely interested, and also gained information that, were I the keeper of birds, would be of great value to me.

I found the MS. though at points defective, and here and there it seemed to me that the chapter headings were somewhat arbitrary, and I have wondered whether you were not proposing to give to it another revision before it should go into the hands of the printers, I think, let me say, that if proper terms can be made between you and us, with which, of course, as a business matter I have nothing to do, we shall be very glad to become the publishers of this new book. My impression is, however, that both for your sake and ours, and also that of the general public, it would be a capital thing for you to go over the whole MS., giving it a thorough revision. I am sure that you will pardon from me this suggestion, knowing the interest that I have taken in your work. I may also claim, although my personal acquaintance with you is slight, to have an interest in you yourself. I recall with great pleasure the summer afternoon that I spent with you at the home of our mutual friend, Col. Banes. It is, therefore, in a measure not only as the literary critic of a publishing house that I write, but also as a friend, making the suggestions that I have just dictated. Trusting that you are well, and begging to be remembered to your father and other members of the family, I am,

Dear Dr. Jones,

Yr letter of July 19 has just been read and I thank you very much for letting me know so promptly yr decision in regard to my bird story.

I shd be glad to have the Publication Sty issue the story – [bird stories are quite in demand now and it might sell well] and I am quite willing to make any necessary changes and am obliged to you for frankly stating your opinion with regard to <…> etc.

I considered [?] the story completed when I sent it to you. The M.S. looks rather untidy for I made change after change, copying and re-copying. You know how hard it is to write simply and lucidly [?] – to [present a] write so that I cd present a picture to the minds of those who were not interested as well as those who are interested in birds,

I regret the appearance of the M.S. My sister who usually does my typewriting is away fr home and I had to do the typewriting myself. As for the chapter headings – I was never more puzzled. I wd treat [?] in one chapter for example of rats, robins, guinea pigs, and rabbits – all of equal interest. What shd I call the chapter? If the Society issues the story and you are not satisfied with the headings I gave you <…> <…> to change any one.

I think the best thing to be done is for you to read the whole M.S. You say you spent a part of an afternoon on it. [Of course I speak of a good many birds and if you will please remember]. That wd not give you time to read all and to consider one part in relation to another. If you will kindly [consider every] look over every page of it and give me yr suggestions as to changes I will gladly make them. At the same time please remember that while I never think a MS. perfect I considered this as near [?] perfection as I cd get it. I wd not have sent you [an imperfect] careless work. It is a serious matter to issue a book and I am willing to take every pains with one if I know what to do – and I think that it is well to have a number of persons read the M.S. of a story. Different minds are impressed in different ways. There may be other books written along this line but I have not been able to discover them. When Mr. Scott who had hundreds of birds at Princeton published his story of a Bird Lover I
with others was disappointed that he did not give here [?] information abt his aviaries. There was only a little bit at the back of the book abt them.

I shall be much interested in hearing again fr you and rest assured that I very much appreciate yr kind interest in the story and am perfectly willing to do anything to help make it successful. Please let me know definitely [?] what you suggest and believe me with kind regards fr [all my family who] my parents who are much interested in hearing fr you.

Dear Mr. Roe,

Thank you for yr letter of the 27th. I am very much pleased that you will take time to read the bird story. Please tell me frankly what you think of it. If it is not clear to you and you think it wd not be clear to the public I ma quite ready to re-work every word of it if necessary, but I wd say this. One conceives a story, one writes it, others criticize and the making over is often wooden. Even tho a story has faults it is sometimes better to let it stand as originally written.

When I wrote B. Joe I told Col. Banes that I wished to hear and to consider all criticisms <…> <…> he and I got so <…> that he said let the story stand. You can’t suit everyone. It isn’t perfect but <…> I argued with him as to its not being perfect – but to my dismay the dear man whom I so sincerely respected and admired suddenly proposed himself that I take the middle of the story and put it at the end and the end in the middle. You can imagine my state of mind. I was so anxious to please him, so anxious to better the story but I did not know what to do. Fortunately for my peace of mind he gave up his idea and said let it go – and it went.

Don’t think fr this that I think this new story is not in any need of change. It might be the best thing in the world to revise it only we must be cautious. With thanks to you for consenting to read it I am,

Yours truly,

My dear Miss Saunders:  

I yesterday had a good long consultation with Dr. Rowland in regard to your manuscript entitled “Among my Birds.” He gave to it quite a thorough examination before it came into my hands and he feels more strongly than do I that a personal scrutiny and to some extent revision of the manuscript by you would be beneficial very decidedly to the general character of the book when brought out. He feels quite strongly that there is considerable matter in the manuscript not quite <…> to the study of birds and he would confine the book almost entirely to these latter. I do not know that I entirely agree with him in this because the matter pertaining to the squirrel and guinea-pig is quite entertaining and they are denizens of your aviary and so perhaps may legitimately claim notice. I wonder whether to meet this point the title might not be changed and instead of its being called “Among my Birds” bear a title something like this, “In my Aviary” or “The Inhabitants of my Aviary” or “My Aviary and its Owners,” I give these as mere suggestions [sic].  

Dr. Rowland also thinks there are a good many repetitions [sic] especially in the latter partition of the manuscript. These he thinks might with benefit be eliminated and thus the manuscript be reduced say one-fourth or one-third as he thinks to its general advantage. I wonder therefore whether it would not be better for me to send the manuscript back to you and let you go over it in th [sic] light of these suggestions and perhaps have it rewritten. A delay of a few month [sic] in the publication would not matter much if thereby we succeed in getting a proportionately better book. I want to commend to you these suggestions and await your decision.

Dear Dr. Jones,

Yr letter of July 30 was read. If you, Dr. Rowland, and Mr. Roe read that bird MS. and decide that certain changes must be made I shall be happy to make them. I am not at all afraid of the labor of revision. I have passion for work. I am only afraid of making simple narrative <…> by <…> with it. Possibly you may think my story not <…> enough. Perhaps I have had too much in mind what Mrs. Pope [?] the celebrated bird doctor of New York has said <…> that no book has been published on the care and treatment of birds in cages and aviaries. – I shall await yr decision with interest and be assured whatever it is I shall not <…> <…> involves [?] – We are one in wanting to make the book a success. Yrs most truly,

M. Saunders

Ps. Evening  Yrs of the 1st has just been read. Please send the story back and I will see what I can do with it. I will try to view it from yr standpoint. It is such a help in anything to try to get out of your own <…>. I will re-work the story fr the MS. I wrote it fr my notebooks and bird lovers [?] are very accurate and like details. I will try to think more of persons who are not so interested in hearing every detail. I will also cut it down. I have great confidence in Dr. Rowland’s judgment but please tell him in introducing extra news [?] matter I was imitating other bird lovers who tell the story of their lives and their birds at the same time. I must try not to have it stiff but as you both seem to agree there is something wrong with it there must be. The <…> will not take to <…> <…>. I think I can get someone to do the typewriting. My dear Miss Saunders:

I have yours of August 3rd for which I desire to extend to you my thanks. Let me say Mr. Roe now has the manuscript. As soon as he returns it to me I shall forward it to you. I appreciate very greatly your willingness to undertake its revision. At the same time I wish to say likewise that I myself have not been so radical in my criticisms either expressed or concealed as Dr. Rowland has been. I think I said to you in a former letter that I would not remove all matter pertaining to the inhabitants of the aviary except the birds. I think that gives variety and adds interest. I would not likewise remove the directions that are interspersed in regard to the family pets. I do not know any book where in just the same way such information is given and I am inclined to think that it will add to the value of the work. For myself I am not particular as to a radical shortcoming of the book because if it is full of interest it is going to carry its readers through three hundred pages as well as two. My own thought as expressed to you before is that there are some redundancies [sic] in the manuscript that might with advantage be removed, and some expressions that [might] perhaps without making the work rigid and stiff can be made a little less colloquial. Likewise I think that the chapter divisions are capable of considerable modifications to the general advantage of the book.

This letter expresses my own thought in regard to the matter and I think that if these suggestions are followed in the main with such enlargement as your own judgment shall prompt when you come to the revision, the situation will be abundantly met. I can thoroughly well understand how from your point of view you may legitimately [sic] fear making the manuscript too bookish and cold and so repellent. I sincerely trust that the emendations which we suggest will not lead unduly in this direction but will be, as I think they will be, a help rather than a detriment. With all good wishes, I am,

Very sincerely yours,

Dear Miss Saunders:

I have your letter of the 31st ult and have been waiting before replying until I had finished reading your manuscript. I have had so many things to claim my attention that it has been impossible for me to do so, however. I am about one-third through with the reading and as far as I have gone am very much pleased with its general character. Dr. Jones has talked the matter over with me and I agree with him in his suggestions which he has made to you about the rewriting and rearrangement of the material. I believe that the material which you have gathered together will make a book that will sell. I am impressed with its strong appeal to children. As you say, there is nothing of the sort on the market. I think the title should be changed so as to indicate the fact that the book contains a great deal about animals as well as about birds. The title might read something like the following: “My birds and the Animals that lived with them.” This matter of title is a rather vexatious one and at the same time, one of the most important things connected with the publication of any book. A happy title is the best introduction that a book can have. It would be well to consider this question at length.

I note what you say in regard to Col. Bane’s’ suggestions about “Beautiful Joe.” I am not surprised at them as they came from one who was not experienced in the book business. One needs to have spent a great deal of their lifetime in the business of book selling before they can become good judges of what the public want and even then, they are oftentimes at fault. It is easy for an outsider to give an opinion but that opinion is of little value unless back of it there is a good deal of practical experience.

Dear Mr. Roe,

Thank you fr your letter of Aug 8th. I was glad to receive the proofs of the advertisement of B. Joe and will make good use of them. I am very much obliged to you for looking over my bird story. It was kind in you to take the time.

[I did the best strange to say when I began to write the story. I mapped it out differently. I had carried each]. I am satisfied now that there is necessity for some change in it since you, Dr. Rowland, and Dr. Jones agree. I did my best with it but I will go back to my original plan I think which was slightly different in arrangement from this. I don’t mind the labor of clarifying a story if I am convinced [there is necessity for a change] that the change will make the story better and if the story is one I can alter. I think this will be feasible.

I will try to think of a new title and if one occurs to you or Dr. Jones I wish you wd suggest it. I will do the story as soon as I can but may have to go away for some weeks for a change. I am apt to write too steadily.

If I model the story as I propose I may bring out the different chapters in some of the papers I write for. You wd have no objection to this I am sure as it wd assist in advertising it. I might try the Youth’s Companion as I am often asked to write for it.

Please send the MS as soon as you can and believe me,

Yours very truly,

My dear Miss Saunders:  

I have finished reading your manuscript and returned it to our literary editor who has, I believe, forwarded it to you. I was very much interested from start to finish and believe that with a few changes, the book will meet with the approval of the public. It makes a very strong appeal to bird lovers and should meet with the approval and endorsement of the Audobon Societies. With a taking title and the proper setting in the way of illustrations, frontispiece, cover, etc. it should prove a very successful book. I took the liberty in two or three instances to indicate phrases which it seemed to me might possibly be eliminated, having in mind the fact that the book would appeal strongest to our young readers who are at the most sensitive and impressionable age.  

As I said, I was greatly interested in your narrative and found it both entertaining and profitable. I hope that some day I can migrate to California and have an aviary in that favored clime. Your book has started me thinking in that direction.

I hope that you will have received ere this a copy of the new edition of “Beautiful Joe” which came off the press last week. We have orders from the trade in sight that will, I believe, take up almost the entire the first edition of 5000 copies. We are advertising it extensively through the press, in our circulars and in our forthcoming catalog and are reaching the trade through personal solicitation on the part of the Managers of our five different Branches. I am very much pleased with the appearance of the book and hope that it will appeal to you.

I have forwarded copies to the individuals whose addresses you have given me ad have written them a personal letter calling their attention to the new edition, which I stated was sent them at your suggestion.

Copies have gone forward to the religious and secular press of the country as well as to the various trade and literary papers, which a special letter requesting a good notice. I have also requested our Branch Managers to see the local press and secure particular attention for the book. All indications point to a successful outcome of our efforts to give the book a proper setting.

This wd do credit to any publisher and I do not see why the Baptists shd not have just as handsome books and employ just as good illustrations as any other publishing house. I will not speak of everything but I am especially pleased with the fine clear type, the cover design and the frontispiece. The whole thing is in good taste. I see no inadequacies. I am greatly obliged to you for the interest you have taken in getting out this new edition.

Our new chapter comes in <…>. I do hope that this edition will be a great success and I will reward you for the time and trouble spent in getting it up. I will write Mr. Copeland abt the illustrations.

Dear Dr. Rowland,

The arrival of a copy of the beautiful new edition of B. Joe pleases me and tempts me to indulge in a little sentiment. I have been writing some of it to Dr. Jones and now I must say to you that the issuing of this edition seems like a milestone in my literary journey. I am thinking a good deal of kind friends who have been associated with me for so many years. No one person can make a book succeed. There must be co-operation. For what you have done I am exceedingly grateful and I hope it may be our good fortune to work together for yrs yet to come.

I thank you for yr criticisms of my bird story. On thinking the matter over and trying to view it fr yr standpoint I may say [that my first conception of the story] that when I began the story I took a piece of paper and wrote out on it my <…> owls – tell all I know abt them – give the story of their lives – then describe pigeons. I intended to give each bird a story but thinking of the precise nature of information required by bird lovers such as Frank Chapman I discarded this first plan and kept to a note-book style. Now I think I will resort to the first plan just as soon as I can get at it. My mother is not well and I must take her away first. I will try to make as interesting a bird book as I can. Hoping that the new ed. of B Joe will be a great success, I am,

I have yours of September 9, and was indeed glad to receive it. We are very much pleased that you are charmed with the new edition of "Beautiful Joe." I believe that it is going to help give the work still larger currency. The first edition of 2000 copies has already been sold, as I understand, and the second impression has been ordered. Your kind words in regard to the notice on the cover led me to look it up. It had not caught my eye, being on the back of the book, and I was not sure that I had written it. On glancing over it I recognize some familiar marks, and so probably shall have to plead guilty on the whole to the indictment. I am glad that you are pleased with it, for it embodies my own sincere thought in regard to your work.

I thank you for your kind invitation, and I want to assure you that it has been in my mind many a time, especially during the past four or five years. I have never been in the Provinces, and I am promising myself and my wife next summer some sort of a treat. If we do not go across the ocean, we are going to come into your Dominion. There are so many things in Nova Scotia that have helped to form a center of attraction for me for years which thus far I have not been able to respond to. I want to do it just as soon as I possibly can, and shall. Again, thanking you, and hoping that your work on the revision of the new book is progressing, I am, as always,

Dear Madam:

I have your esteemed favor of September 9, and beg also to acknowledge a letter of the same date to Mr. Roe, who has gone on a Western trip, and will not be back for several days. I am very glad indeed that you like the new edition of “Beautiful Joe.” We think here that it is about as good an edition as can be issued, and hope for a large sale. We trust also that the sale of the new edition will stimulate that of the old, and that the book will take a new lease on life. We have our hearts set on selling a million copies of all editions, and believe that we shall accomplish our purpose if we keep pushing.

As to your bird story, I was very much interested in it, though I really think it can be improved by re-writing. You want, of course, to make the book the very best possible, so that it may have an equal sale with “Beautiful Joe.” I believe that if it is carefully revised, it can be made as good a book as “Joe,” and perhaps have something of the same success. You may be sure that we will do our utmost to secure for it the best possible reception.

I am very glad indeed again to hear from you, and sincerely trust that you and yours may have a pleasant Fall and Winter.

Your esteemed communication of the 9th inst came during my absence on my vacation trip to the West. It pleases me very much to know that the new edition of “Beautiful Joe” meets with your approval. You will be interested to know that it has been selling very well. One house has taken an edition of 2500 copies. The first edition of 5000 copies has very nearly been exhausted and we hope to sell as many more during the coming year. If you have any suggestions in regard to advertising it, we would be pleased to have them.

When in Chicago, our manager there, Mr. Chas. L. Major showed me a copy of the book which you so kindly autographed for his little boy; he was delighted with the trouble you took to make it interesting for the little fellow. Our Chicago Branch is perhaps, the best branch which we have and they have already sold a great many copies of this new edition. Messrs. A.C. McClurg and Co. the largest book store in the country, stated to Mr. Major that they considered this book the best $1.25 book that has ever been issued. If we have your new book, I hope we will have equal success in bringing it out in attractive form.

My dear Marshall-

I wonder whether it is possible to pick up the threads of our correspondence again. I found a letter of yours today in my desk dated 6th Dec, how many years old I don’t know. I am afraid it must be two or three. I discovered another book you have brought out, a continuation of “Beautiful Joe” and I am charmed with it. I always enjoy reading over [?] “beficient [sic] saints” – it is such a quaint story. Last year I took my eldest daughter Marione to school in England and also my smallest daughter Antoinette went with me. I was away from Natal about 7 and a half months. I stayed with the James Blaikies in Norwood [?] and we had long talks about you and it has been working in my head that write I must to you.

I did not see Ailie when I was at home last year because I did not go North at all, but I heard from her and my Mother has just been staying with Mrs. Blaikie and Ailie at North Berwick. She tells me that Mrs. Blaikie is failing rapidly, is very <…> and Ailie has had to let her husband return alone to China, whilst she takes care of her Mother and her own little children, who cannot return to China. It seems hard on the husband and wife to be parted.

Georgie I found very well, all her children grown up, and Annie her daughter just out.
The latter is such a comfort to her Mother. Cuthbert is studying to be a doctor and Adrian is to be an accountant I believe. <…> the 2nd boy has gone to California I believe and is much stronger. <…> of course you know is a missionary in China. He and his wife have been at home this year on a visit. Willie Blaikie and his wife Allison have been or still are on a visit home, and Willie I hear is not a day older looking. Allison, however, has lost her looks, they had their deaf and dumb boy home with them – Bertie has a small girl or boy who has had meningitis and does not grow either intellectually or physically, and just lies. It must be awful to be a doctor and realise that humanly speaking he can do nothing to save his child.

Charlie is also married and he lives at North Berwick. I found an excellent school for Marjorie near <…> in Surrey. She appears to be very happy there and I hear every week from her. I expect her to be there until next Easter and then I want to let her be a year on the Continent, and then bring her out to Natal. She will then be 19. I feel as if I ought to be nearly 100 and I am aging fast and my hair is getting gray and alas I am getting stout – my bigbear [?] I call it. Cormac my eldest child and only boy was 19 in June. He finished off his school days last Xmas. He was head boy for a year and Captain of his Cricket XI, and Captain of his Football XV, and Quarter Master Sergeant Major of the 80 cadets at Hilton College, and he passed his Matric. fairly well. So we have much need to be grateful about the boy, but he was not very strong so the doctor advised in sending him for a trip home. He went last January and we expect him out here in three weeks time. He is going into a College for a year to learn business habits and then I believe he is going to grow wattles [?] like his Father. He is tall, about 6 ft. and has big ugly <…> and a pleasant face, big nose, blue eyes, brown hair and is I think good., and has excellent manners.

Jeanette my second girl is a boarder at a school in P.h.B. – she is 13 and is too going to be sent away to England. She comes home to me every fortnight for the weekend. She is better looking than Marjorie and has signs of growing taller and leaner – poor Marjorie is very fat and stout, but is grand at all practical things and can use her hands well. Jeanette will I think be better at her school work but she will never be the housewife Marjorie is. Antoinette the Baby of 8 lives with me in the country. She is a contrast to all the others, who have blue eyes and brownish hair, except Jeanette who has black hair. Tony has bright auburn hair, not carrots. Curly all over her head and think. She has black eye lashes and eye brows and dark brown eyes. Her complexion is pretty but is getting very freckled. I teach her myself and my dear Marshall it is absolutely purgatory. She hates learning and won’t learn to read. She is
quick at figures and History but look at a book she won’t to pick out words and read. I am in despair over her. My husband is managing a Wattle [?] Company in the <…> and he goes up about 3 weeks out of every two months. It is rather lonely for us both whe he is away but that is the only way we could arrange matters. Things have not prospered in S. Africa since the war and no one knows when we will <…> get better seasons or times [?]. Johannesburg is in a dreadful state and our seaport Burban [?] is as bad. Our “nest” is perched on a knoll overlooking the railway line (about 6 miles from town by rail) and at present the place is looking very pretty. All the azaleas are out and big. <…> daisies and white bushes are every where and the natural bush is on each side of the garden and it is all in new foliage and the grass is just green and it is a joy to live and look at the Earth when it is like this. Our winter which is just over is long and dry and dusty and very ugly so we welcome our first rains, which <…> every thing in lovely spring colours – now to your letter -- I do hope I have answered it – but the mere fact of it being in a drawer with <…> others look bad for <…> -- I too heard from Helen Thom [?] after she moved to Edinburgh with the invalid husband and I have not heard from her since. I suppose there is no hope of his recovery. Her eldest girl Katie has been married nearly two years. I knew her husband’s sister when she was in P.h.B. [?] but she has gone to Johannesburg now and I have not seen her for two years. <…> Beuchan [?] I never hear of or from – I know Flora Cameron is married and I believe Jessie <…> but I never hear of them. Bella Liddrell [?] too has gone from my <…>. Ella Carmichael was <…><…>. The <…> you know are both married, the Eldest most tragically. The 1st husband committed suicide and Louie [?] had to remain all night in the room with his body for he threw the key of the door out of the window. Then after three years she went to India and married again and her husband dropped down dead in the street from sunstroke. She returned home to <…> and I heard last year when I was at home that she was married again but I do not know if that is authentic. I heard from Miss Fraser once from Australia but not for years – I am afraid you will think I am horrid not knowing anything about all these old companions and friends – but time passes and we forget each other – It would be interesting to just drop in on some of them and just spend an hour and go on our way again. I wonder how many of them we would care to revisit. Have your read “The Upton Letters” – by an unknown author supposed to be one of the <…>. He has one letter on an old school friend and his visit and he describes how he was <…> be bored but the man was not because he was so egotistical that he thought only of himself and his own life, and he
talked all the time.  Muirhead [?] was your little black eyebrowed [?] friendly governess. She married I think her young man nd. [?] Marshall but I now know nothing of them. My brother’s only boy Valentul [?] is at Hilton College. My brother still practices as a doctor but he is in the Northern part of Natal. He has been a widower for 8 or 9 years – James too is married but he has not been hereabout [?] a year yet. He lives in Barbertan [?] in the <…>. He is manager if Moodie’s Electric works which supply power to 4 gold mines to work the Batteries. Willie has been married for about five years, he has 2 little girls and a boy – He lives near Robert in North Natal. He is farming but it is uphill work.

You know my Father died some five or six years ago – Influenza – my Mother lives at Woolwich with Jean – Jean’s husband in now a Major in the artillery and he has a very good appointment at the Arsenal for at any rate three years. Jean has 3 boys – I was glad to see her last year. She had special charge of Marjorie in the holidays. Have you still 86 [?] creatures to attend to every day – I hope your parents are still alive – though a parting has to come. Have you read any of Arthur Chamber’s books – “Life after Death” is a fascinating book and one which has taken hold of me – I feel as if the writer’s ideas must be near the truth. <…> Duckock also writes in the same strain but he goes on deeper <…>.

I hope <…> still does well and he and his wife and children must all be a great interest to you. Do they live near you? Ned you said was beyond Winnipeg. My husband is growing stout but is very active. He is chaffed [?] about growing stout but his invariable answer is that his clothes have shrunk. Toinette would amuse you. I have your photo, with your fox terrier in front of you, looking up at you, on my writing table and I showed it to her and told her that you wrote stories about animals. She knows “Beautiful Joe” and your lamb stories – and she says she is going to write a story about her fox terrier “Jekyll.” He is a waif she picked up when we were on a visit in town and he had a way of spending the day with us and then disappearing at dusk and then turning up the next day. So we named him after Louis Stevenson’s Dr. Jekyll and Mr. Hyde, and one day we heard about him. His mistress had been brought into the hospital for an operation and he had missed her and the husband and son were busy, so the dog found Tony in the street one day and his disappearances were when he went home about 20 miles into the country to see if the family had gone back. The man gave the dog to Toinette and we brought him up here, and he has been most faithful ever since, and we don’t know the man’s name nor if his wife died or lived.

Toinette is mad about animals. Today I said without thinking that a certain hen would
have to be killed if she laid no more eggs and bothered the other hens in their nest, and I had her shut up in a box, and you ought to have heard the <…> and <…> sort of catechism which has gone on ever since. If she lays 2 eggs will I let her off, if she lays 4 eggs in a week will I let her off, then finally if I find 6 eggs in the box tomorrow morning will I let her off – So I said “Yes for sure [?]” – and her reply was “Does not matter if she has not laid them Mother.” So I saw the drift of her last query and said she was not to put them there. What can one do with a child like that? Caterpillars, moths, toads, tadpoles, any thing alive she loves. I must bring my long history to a close. I don’t believe you will have the patience to read it all – not at one sitting. Write to me do and tell me all about yourselves. The above address will always find me. I promise you another letter after my son arrives here. If you do go to England before next Easter remember Marjorie. Her address is St. Katherine’s, Hookheath, above <…>, Surrey, England, and Jean’s is 10 Royal Arsenal, Woolwich. She has always been keenly interested in you and you are bound to meet and like each other. Georgie said last year that there was or had been some chance of you going home, but she had not heard anything lately. My love Marshall dear to you – also remember me to your sisters and brothers and your parents specially. Do you remember the canoe? I have it still and the mocassins [sic] you sent me. They are still <…> the <…> but have lose their keen [?] bouquet [?] which they had on arrival. Do you remember our Grossach [?] trip and the air at Balloch? How it poured and the poor couple we stared at – because we said they were on their honeymoon – On what grounds we said so I don’t know. Toinette is learning bits of the “Lady of the Lake,” Huntsman rest thy warfare o’er.” I can remember James Blaikie give over the whole poem as we went along on the coach. Cormac did the same route last June. Now good night my dear friend. I feel as if I had been inspired. My pen has flown to the detriment of my writing. Love always,

Dear Mr. Roe,

Thank you for the circulars – they are very good. Mr. Joseph L. Stevens, Am. Humane Edn. S’ty, 19 Meets St [?], Boston is worrying because his copy of the new ed. of B. Joe has not come. I asked you to send him an <…> copy. I bot. 3 copies for other <…> of the S’ty but thought I would not complicate matters by getting him one in case you have not yet sent the one I asked for.

The humane federation of <…> is just abt to have a meeting here. The members [?] have been interested in circulating B. Joe. I thot. by what one of the members said that we ought perhaps help them a little more and they might help us a little more. I will try to get some more definite information on the <…> during this meeting.

Dear Miss Saunders:-

I have your esteemed favor of the 11th instant and note that Mr. Joseph Stevens for some reason or other has not received the copy of the new edition of “Beautiful Joe.” This must have been lost in the mail, as we find a record of having sent it. I am sending him another copy to-day. I hope it will reach him safely.

We very much appreciate his cooperation and will be glad to work with him towards securing a larger circulation for “Beautiful Joe.”

I enclose herewith a new circular which we have just issued, with which I am very much pleased. Many of the large book selling establishments are using this circular with their imprint.

If any of your friends wish to use it, we shall be glad to imprint any quantity desired.

With best wishes, I am,

Dear Mr. Roe,

Thank you for yr letter of the 14th. I like the new circualar very much and would be glad to have 2 doz. more. You might send a dozen to Mrs. C.K. Moore, 11 Girton Place [?], Rochester NY, 1 dozen to J.C. Saunders, <…> Dept.
and one doz. to E.M. Saunders, Bank of Commerce, Moosejaw, Sask.

With regard to the humane societies – I want to make a careful explanation in order that you may fully understand. I am intensely interested in humane work. I would be whether I wrote books or not for I have inherited a love for children and dumb animals. I belong to different humane societies and wherever I travel I visit such societies and get information from them as to the work they are doing. Some of these societies have recognized what little work I have been able to do for dumb animals – the Paris, France Society for example that sent me a medal – Other societies don’t know anything abt me. I visit them not as an author but because I am interested in their work.

A federation of the American Humane Societies has just had a meeting in Boston. I think 200 societies were represented. I took great pleasure in attending this meeting and received from delegates much attention and courtesy. Many of them have circulated 1000’s of copies of my books. Now you will please understand that these societies do not exist for the purpose of making money – Many of the members do humane work at the expense of time, strength and money. One must [?] not approach them on the money making basis. I feel that in a way they have done too much for me and I ought to do something for them. It has occurred to me that the Publication S’ty as my publishers might return some of the kindness of the humane societies by helping to circulate their literature. I don’t know what your rules are – that is, how much literature belonging to other firms you are willing to handle, nor do I wish to urge a business firm to be more altruistic than it wishes to be, but I do see a chance for you to do a good turn to these societies who have already done so much for me if you are willing to do so. Of course the matter must be delicately handled. I don’t wish
to be bidding [?] for them to sell more books for me.

If you approve there are two men I wish you could see or write to – Albert R. Rogers, 75 Maiden Lane, New York City, and Dr. Wm O. Stillman, 287 State St., Albany. Tell them you are my business representative and ask them if there is anything you can do for them in the way of circulating humane literature. I have given them both copies of B. Joe – new ed.

You might also write to Geo. J. Angell, <…> Ave, Am. Humane Ed. S’ty, 19 Milk [?] St., Boston and see if you can make any arrangement with him abt helping to circulate his publications. Ever since B. Joe came out he has advertised it in every copy of his paper Our Dumb Animals wh goes every month to the editorial rooms of every newspaper and magazine in America north of Mexico. He has out B. Joe circulars in his letters – one of his vice presats. during the recent Food Fair in Mechanics [?] Building told me to send a number of copies of B. Joe to their booth and they wd sell them without commission. One afternoon they advertised a meeting in Paul <…> Hall with the author of B. Joe as a speaker. [No one knows exactly how much the] This Mr. <…> tells me he has sold a large number of copies of B. Joe while forming thousands of bonds of mercy. If you see him just get him to tell you what the humane societies have done by selling B. Joe and you will not be surprised that I wish you to reciprocate as far as you can. But I beg of you don’t let any of my humane friends misunderstand us and think that we are simply trying to make money out of them. Business is business and it is only fair that if A helps B sell books, B ought to help A. But my plea is that A has been helping B more than B has been helping A and we ought to even things up. I am sure you will understand my position and believe me,

Dear Miss Saunders:

I have your good letter of the 18th inst and am glad to know that you were pleased with the circular of “Beautiful Joe.” I am sending you two dozen more copies as requested and will be pleased to supply you with as many more as you wish from time to time. I am also sending the quantity requested to the three different addresses which you have given.

I have read carefully what you say about the various Humane Societies. I am intensely interested myself in work of this sort, having been a member of the Audobon Society almost from the time it was organized. I am also a member of the American Ornithologists’ Union. While particularly interested in birds, I am also interested in the cause of protecting all dumb animals from cruelty. I am interested in the federation of humane societies which was effected in Boston, recently and shall be pleased to distribute a reasonable quantity of the pamphlets of this Society or any of the societies composing this body, and will as you suggest write to Mr. Rogers of New York and also to Dr. Wm Stillman, offering my services in that connection [?]. I shall also write to Mr. Angell.

I shall be pleased to see a copy of “Our Dumb Animals” and will do what I can to aid its circulation. In our new store which will be finished probably early this Spring, we shall have ample room in which to make a special display of Nature books. I will see that particular attention is given to showing pamphlets of the Humane Societies, the paper “Our Dumb Animals” and anything else that will help the cause in which we are mutually interested. I know, of course, that the Humane Societies have done a great deal for “Beautiful Joe” and will be very glad to do anything I can to help them.

It is gratifying to know that you hear words of praise for the new edition of “Beautiful Joe.” It was a great pleasure to look after its publication and I hope that in its new dress it will have a still greater sale than it has had in the past.

I will see that editorial copies are sent to Mrs. Rood and Mr. Pershing and that a copy is mailed to E.M. Saunders and charged to your account.
I was very much interested to note your statement that the “Bird Story” was half finished. I shall look forward to the completed manuscript with pleasure.

Dear Miss Saunders:

I take pleasure in announcing that we have been fortunate in securing Mr. E.W. Lord to represent the National Child Labor Committee in the New England States. This Committee has definitely adopted a policy of organizing its work locally that each section of the country may be represented from within itself. We believe this is a still wiser plan than to still further add to the strength of a central office in New York City. The industrial interests, social traditions, educational institutions and other considerations render the New England States obviously a natural division. It is not our purpose to multiply the organizations already existing, but rather to co-ordinate and represent the various separate forces in order that there may be unity of action in the further protection of the children of New England.

Mr. Lord comes to us from five years experience as Assistant Commissioner of Education for Porto Rico, where he has given especial attention to the practical phases of education. He is a native of Maine, a graduate a Boston University, and was for several years connected with the public schools of Maine and Vermont. We bespeak for Mr. Lord your hearty and sympathetic co-operation in his work. Headquarters for the New England district will be established in Boston and pending the opening of a permanent office, any communication to Mr. Lord should be addressed care of Estabrook and Company, 15 State Street, Boston, Mass.

In December we sent to the editors of the religious press throughout the country a call to pastors and churches to observe Saturday, January 25th, or Sunday, January 26th, as “Child Labor Day.” This call is meeting a prompt response and has already been published in a number of papers.

Will you kindly bring this request to the attention of the pastors in your community? It may not have appeared in their church paper or may have been overlooked. Please urge them to preach on the topic, present the subject in Sabbath school or young people’s meeting, or otherwise bring it before the people.

You might aid one or more ministers by loaning them some of the literature we have sent you. Tell them we shall be glad to furnish pamphlets upon request, and that this Committee, maintained entirely by voluntary contributions, will appreciate an offering from their people.

You will be interested to know that we are planning to hold the fourth annual meeting in Atlanta, Ga. It has been thought advisable to hold the meeting in the late Spring rather than in mid-winter, as heretofore. When the date and plans are more definitely fixed, we shall be glad to advise you.

We are sending herewith a copy of the annual report for the third fiscal year.

Dear Dr. Rowland,

I sent you yesterday by express the M.S. of the story of my birds. I have entirely re-written it and have introduced fresh matter bringing it up to date. Mindful of yr criticism that as the story is a bird story it ought to be mostly abt winged creatures I have taken out every human being and every 4 footed animal that has no direct connection with the birds. I left in the rabbits and guinea pigs for I think they add interest – they are not usually kept with birds and I fear the story wd suffer if I withdraw them.

You will notice that the story is shorter now and that the birds are classed. I have tried to relate a continuous story abt each one though of course this has been sometimes difficult.

I shall be glad to know what you think of it – If it does not arrive kindly let me know and believe me,

Dear Mr. Roe,

Yr letter of Mar 31 was recd. I am glad that you found my note for My Pets <…>
Certainly put my name to it. With regard to my getting endorsement of friends for “My Pets”
I shall of course do all I can but my sphere is limited. I can send a certain number of
advanced copies to a certain number of friends and what they say will help to make a circular.
But I am wondering whether we cd not widen this sphere of operations. Why could not you
as business manager of the A.B.P. S’ty prepare a circular and sign it with yr own name stating
the extent [?] and aim of the S’ty’s efforts – that is education etc. along religious and other
lines. You have now published a story that you think might have some value as reading
matter for boys and girls and that wd induce in them a friendly spirit toward the animal
creation. State the immense loss to the country thro the <…> of bird protection, the necessity
for instructing children as to the preservation of bird life etc.

I shd think you cd prepare a circular that could be sent to a certain number of supts. of
schools, and clergymen, and humane society presidents all over the country. I wd send these
circulars and advance copies and ask for opinions. If the school supts. approve it ought to be
an easy thing to get the book into schools as supplementary reading. I suppose it wd be an
easy matter for you to get the addresses of school supts. I can get the humane society
addresses. Please let me know what you think of this. If you wd like addresses in Canada I
could get you any there.

[I wd not send advance sheets to too many persons – say to school supts. in large cities
– You wd know abt how many]. After these chosen ones give their opinions another circular
could be got out containing what they say and this circular could be sent to many persons who
would be influenced by it.

I am quite well again thank you.

Yrs very truly,

Dear Miss Saunders:

I have your letter of the 31st ult and am glad that you were pleased to get the story of the Horse. Before this you will have received my letter in regard to your note, how you came to write “My Pets.” Every one who has read it is pleased with it and I believe it will be just what we want for the cover slip and other advertising purposes.

I note what you say about your desire to join a Bird Society, a national one. I should say that you could do very effective work as a member of the National Audobon Society. This organization has headquarters in New York and the secretary is Mr. William Dutcher, 141 Broadway, New York City.

There are State organizations of the Audobon Society and no doubt you will wish to join one of these also, provided you intend to live any length of time in any one state; say Massachusetts or New York. I have been a member of the Audobon Society since 1886. The organ of this society is “Bird Lore” edited by Frank M. Chapman and published by the Macmillan Company; subscription price $1.00 per year. I have it from the first number and am having the volumes bound up so that my children will have them. Nothing that I know of in the way of bird literature is more attractive or better suited to inspire children with an interest in birds and for their preservation than this delightful publication. Beside many half tone plates it always contains one or two color plates which are far superior to anything of the sort that have been made of American birds.

The American Ornithologists’ Union is made up of scientists almost exclusively. Their publication is “The Auk.” The treasurer is Mr. Jonathan Dwight, 134 W. 71st St., New York City.

I am glad that the Clipping Bureaus have sent you notices of your book which I have caused to be inserted in the press. I shall follow this up later on with a notice of how you came to write the book. I am glad that you are pleased with our efforts in placing the book before the public. You will be interested to know that we have already booked quite a
number of orders.  I agree with you that the title although homely, is appealing, and is I think the very best that could have been chosen. I am glad that you are pleased with the cover design. You will be interested to know that I have decided to have designs drawn for end papers; these will be in harmony with the cover. The top I think I shall wash with a light green. Altogether I believe it will be a thoroughly artistic and attractive volume.

You have included in your MS. a great many illustrations – too many I am afraid to get into the book and make it at a reasonable price. I will go over them carefully tomorrow and see just how many we can include. I will let you know what conclusions we reach.

I am glad that you are pleased with my little typewritten description of the book. I feel confident that the volume is going to be a pronounced success; we shall do everything we can to make it such. What do you think of including in the back of the book from four to six pages headed “A Record of My Pets,” this space being intended for an account of the pets of the child owning the book? This would be something entirely new and might add interest to the volume. I should like to know what you think about this.

I have your letter of the 2nd inst and note your suggestion about the writing of an article calling particular attention to the relation of your book “My Pets” to the movement for the protection of animal life. Following this suggestion, I have prepared the enclosed note which will be sent out with our usual announcements to the press. It will not be printed for some time so that there will be an opportunity for you to make suggestions for changes or additions.

It would be advisable, I think, to follow this up with another note laying special stress on the importance of establishing Bands of Mercy and the way in which this book could be used by such organizations. If you have any information in regard to the “Bands of Mercy Movement” which would be of interest in connection with such an article, I should be glad to have it.

Dear Sir:-

The purposes of this letter are two-fold:

Your name has been nominated for membership on the Local Advisory Committee of the American Health League of the Committee of One Hundred for Halifax, NS. These committees are being organized from among the leading citizens of various localities throughout the United States, in furtherance of the cause for which the Committee of One Hundred was originally appointed, namely, the betterment of the national health. I hope you may consent to accept.

Your judgment is especially requested with respect to the questions enumerated below, inasmuch as you are familiar with the local conditions. For, in furtherance of increased federal regulation of public health, the cause for which the Committee of One Hundred stands, carefully laid plans are absolutely essential to the early success that is desired. Few classes are better advised and more capable of forming opinions of real value on current political and social movements than the writers of America. Since those who aid so largely in moulding public opinion are in close touch with general needs, the liberty is asked to confer with you relative to the several questions enumerated below.

Although President Roosevelt has forcibly favored the movement on two occasions much still remains to be done. To minimize the burden of making brief replies to the following questions which are of special interest to us, a stamped mailing card is enclosed.

Which of the following conditions effecting public health at the present time presents the most imperative demands for attention from the next Congress and should command widespread popular justification?

The facts that the Ohio River represents a thousand miles of typhoid fever, and the Hudson River a cloaca maxima from Albany to the sea; the prevalence of deadly infection among millions of our people, arising from the contamination of drinking water, and of ice, and the rapid increase of pollution of our rivers, the boundary lines between states, which only federal
authority can control; or
The facts, that out of 80,000,000 of our people, 8,000,000 must perish from tuberculosis, the white scourge, which with proper regulation enforced by the federal power can be exterminated as completely as the once dreaded small pox; and that the uniform enforcement of national health regulations in all states is absolutely imperative, because infected persons travel from state to state spreading the disease; or
The facts, that the public have no means of obtaining reliable health information, and the thousand questions which anxious fathers and mothers ask themselves go unanswered simply because there is no office at Washington equipped for the purpose. If strawberries wilt in New Jersey or lambs fall sick in Arizona the Department of Agriculture gives elaborate instructions as to what should be done. But two millions of human beings die each year, a large proportion, and literally because they cannot find out how to live.
In return for the annual dues of membership in the American Health League which are one dollar per annum and upward, it is planned that the official organ of the American Health League, “American Health” shall be sent all members free of expense. American Health, the first issue of which is expected to appear in February will therefore serve as a means of communication with members, for the purpose of acting in co-operation to secure legislation by Congress. Believe me,

Very truly yours,

Let me acknowledge receipt of your card of inquiry dated May 1st, and also of your contribution to the Committee of One Hundred sent in at an earlier date. On account of the extensive and unexpected correspondence passing through our offices we have made every effort at economy. Sometimes over a thousand letters are attended to in a single day. For this reason we have delayed sending out acknowledgements until the official certificates of membership shall be ready for distribution.

An unexpected delay occurred in the printing of these, which fact accounts for our seeming lack of attention. The official certificates will be ready to forward now at an early date, however.

I take pleasure in forwarding copies of literature which are now available for distribution. The importance of Congressional action can hardly be overestimated when we consider the meaning in increased happiness of the American people which would arise from a reduction of the death rate by one-half. Dear Miss Saunders,

Upon returning form Oklahoma City while attending the Northern Baptist Convention, I find your letter of the 18th ult. I am glad that you are pleased with the design for the end papers of “My Pets.” This design was not made by Mr. Copeland but was drawn by the Decorative Designers of New York City. Mr. Copeland was so busy with other work that I was afraid that he could not do this as well as all of the other work which he is doing for the volume, so I had it done by another party.

I note what you say about the possible objection to the appearance on the end papers of animals not mentioned in the book. As a rule end papers are not supposed to be a definite representation of the contents of a book; only suggestive and in a general way. They do not come under the head of book illustrations. I can understand your objection to the design, but I hope that readers generally will not look upon it as you have.

As to the colored illustrations, Mr. Copeland has agreed to make them for us so that we will have no further trouble. He is at work on them now. They will be sure to be very much better than Mumfords stiff looking photographs of stuffed birds. I am glad that I happened to think of having him do this work. The expense is not very much more than buying plates from the Mumford people.

It is gratifying to know that you are pleased with the yearly return in royalties on “Beautiful Joe”; I hope that the book will sell just as well during the coming year and that we shall be able to add a considerable sum on the account of “My Pets.”

I have in my hands a note of yours dated June 25 addressed to Mr. Roe in regard to galleys proofs of your book. The proofs have not returned to me as yet, but I suppose will in a short time. I had supposed that galleys of the first part of the book had been sent to you. There has been a break in the process of composition because of the illustration of the work. If these galleys were not sent, revised pages have been, I think, so that you will have had an opportunity of seeing the entire work up to the present before it takes the final form. I shall continue to send galleys to you, but beyond that I hardly think it needful. The revise proofs were sent to you from the Printing House inder [sic] a misapprehension, but I am glad now that they were sent.

Dear Mr. Roe,

At last I have some addresses for you. You will see that I have a complete list of Massachusetts Humane Sty agents. If you wish a list of the agents of any other State you could probably obtain it by applying to some of the addresses I have given.

Yrs truly,

Dear Miss Saunders:-

I have your favour of the 3d inst. which I found on my desk upon returning from Cleveland, where I attended the B.Y.P.U. Convention. I am glad to have the list of the Humane Society Agents. This is just what I wanted, for the purpose of advertising “My Pets.”

I am preparing now, what I think, will be a very attractive circular of “My Pets.” It will be a four page folder, about the size of the book, and between the leaves we will include a sample of the colored illustrations. This will be mailed in a large envelope, with a piece of stiff cardboard to keep the illustrations from being broken. I will send one of these circulars and pictures to each of the addresses which you have obtained. I will also send them to the list of Audobon Societies. In addition to this I have a list of members of Merciful Band, and I am thinking of mailing the circular to them also. If you have any other lists of names to whom you think it would pay to send the circular, I should be glad to have them.

Proofs of the colored illustrations reached me a few days ago. They have come out very beautiful. I asked our Printing House to send you a set. I hope that you have received them ere this, and that you will be pleased with them.

Altogether, the book promises to be a most attractive volume. We expect to have it ready promptly on the date set for publication, viz. August 30th.

Dear Miss Saunders:–

I am thinking of issuing a little circular giving full information in regard to “Bands of Mercy,” in pamphlet form, with an advertisement of “My Pets” and “Beautiful Joe” on the back page.

This pamphlet will be sent out free, all over the country. I wish to include in it a brief article on “How to Organize a Band of Mercy.” I know of no one who could write this, so well as yourself. If you could introduce something into it, similar to your account of Bands of Mercy in “Beautiful Joe,” it would make it all the more attractive. This pamphlet, will, I believe, be the best kind of an advertisement for “My Pets.”

Hoping that you are enduring the hot summer weather which we have been having, with a fair degree of comfort, I am,

Dear Mr. Roe,

Yr letters of July 15 and 16 were recd. I was exceedingly glad to hear of the circular you are abt to issue. Also that the colored illustrations are so satisfactory. I have not yet recd a set. I will write an article on how to organize a Band of Mercy in a few days and will send it to you.

I am sorry you are having hot weather. It is nearly always cool here – We have been sitting by a fire the 2 last days.

My dear Miss Saunders:-

The Playground Congress to be held in New York City September 8th to 12th will be the most important demonstration of the vital relation of play to the life of the nation which has ever been held in the United States. The literary program will include addresses by leading promoters of the playground movement, educators and philanthropists. The Governor of the State of New York, Honorable Charles E. Hughes, will be one of the speakers.

Play demonstrations will be held on roof playgrounds, in public school playgrounds and park playgrounds; also visits will be made to public baths, recreation piers, etc. A great Harvest Festival will be the closing feature of the Congress. Special problems of national importance will be considered.

In response to an invitation from Mayor McClellan of New York, the mayors of many of the leading cities of the country have already indicated their intention of being present, and others have written that they will send delegations from their respective cities.

The influence of this Congress upon the playground movement should be as unlimited as the movement itself, and it is therefore important that the membership be representative of the entire country. Will you cooperate by sending the letters that are forwarded you herewith to such persons as you think would or should be interested in becoming members of the Congress, and will you also send to our office, on the enclosed blank, the names of those to whom the letters are sent.

Such cooperation on your part will be gratefully appreciated and will mean much in the promotion of the playground movement.

Under separate cover we are sending a preliminary program and other printed matter, including that which is to be sent with the letters to your friends.

Trusting that you may be able to attend the Congress, I am,

Very truly yours,

Dear Sir:

I have your letter of the 24th ult. upon returning from my vacation. I am glad to have the new list of names which you enclose. The circular of “My Pets” is just ready, and will be sent to these new addresses. We would have had the book all ready for publication on the date settled, – 30th of last month, but have been delayed by not receiving a cable of its entry for copyright in England. I cannot understand the cause for its delay, as we communicated with our Agents there in plenty of time.

We have forwarded a copy of “Beautiful Joe” to Master Alan Rogers at the address given by you, enclosing your card, and billing to E.M. Saunders, as requested.

I think that you will be pleased with the make-up of “My Pets.” It is a handsome book. I think you will also like the circular of it. If you have any suggestions to make about changes in the circular for the new edition, I shall be pleased to have them. There was one oversight in “My Pets” in connection with the title page; the artist’s name does not appear as it should. This happened during my absence. There are only 750 copies bound up with this title-page. The next lot will bear the name of Charles Copeland as artist. Otherwise, it seems to me that the book is very nearly perfect.

Trusting that you have had a pleasant summer, I am, with personal good wishes,

I was interested to hear about the paper which you have prepared to be read at the Meeting of the American Humane Association at New Orleans in November.

I am sending to Dr. Stillman today, a complimentary copy of “My Pets.” No doubt he will be able to speak a good word for it and possibly write a review of it for some journal.

I am glad that you are pleased with the “Band of Mercy” leaflets. As soon as they are ready, I will send some to President Geo. T. Angell and write him a personal letter in reference to them. Your order for three dozen has been entered, and they will be mailed to you as soon as published. The line which you have added will be included; it was not in your original copy.

I am sending circulars of “My Pets” to Master Alan Rogers, Minneapolis, and am also sending you the quantity asked for. If you have any further suggestions about the advertising of the book, I will be pleased to have them. Everybody who has seen the volume and who is qualified to judge in the matter is very much pleased with its appearance. Dear Mr. Roe,

Yr letter of the 11th was recd and your sending a copy of My Pets to Dr. Stillman was an excellent thing. He is appreciative of all humane work and has opportunities to advertise.

Yesterday I went to the Customs for the books. You can imagine how eager I was to handle it and drawing up the horse in a secluded part of the Park my mother and I looked over it. Scanning it out-of-doors seemed to accentuate what I wished to put in it – a love for Mother Nature and all her works. I have been ably by those who have had to do with the make-up of the book and I can assure you I am charmed with it. It seems the most “alive” book I have written and when I came home I went into the aviary and felt like telling the birds all abt it. The illustrations are full page and others. There is real art in Mr. Copeland’s work. He gets the birds’ spirit and puts it in the face. The expression in the owl’s eye p. 22 is exact – also the look in the terriers’ faces as they chase the rats p. 83. The end papers are very good – I don’t know who designed them. Altogether I am sure the Society will be greatly complimented in the appearance of this book.

I have read it thro and notice only 1 or 2 slight errors. on page 18 line 28 I intended to be Beautiful wild beauties, p. 35 line 8 I find in the original MS reads beautiful wild [?] birds. Page 50 line 25 wd read better Some [?] of a few of her flight feathers had to be pulled out as original – one feather wd not make much difference in flight. Page 174 line 17 shd read The quotation on title page shd be in marks. I was after B. Joe came out by being reprimanded by some newspaper for publishing a lot [?] of in it without quotation marks. The paper said that the lines were by one Mr. and Miss S. had taken the credit of them.

The record for pets is a most original idea and one that I prophesy will take with boys and girls. There are 3 persons to whom I wish you wd send copies of My Pets and charge to my acct. They are Prof. Clarence King Moore, University of Rochester, Rochester, NY, Ernest A. Watts, Curator Sonnenberg Aviary, Cauaudaiqua, NY and Ralph Waldo,
<...> Laundry, New York.

Now I wish you wd send one fr yourself to Mr. Geo. T. Angell, Presdt. Am. Humane Edn S’ty, 29 <...> St., Boston. He like recognition from publishing firms and I wish you wd ask him if he is not able to read it himself if he will get one of his officers to do it and let you know what he thinks of it.

Another person to whom I wish you wd send a copy fr yourself also asking an opinion is Mrs. S. J. Eddy, Bristol Ferry, R. I. She is a well-known humane worker and publishes a paper of her own. She is a great critic and I prophesy that she will have <...> to say to us abt picturing dogs chasing rats. However I wd like her to take an interest in the book.

Another person to whom I wish you would send a copy and ask for an opinion is Clarence Carroll, Supt of Schools, Girton Pl, Rochester NY.

I thank you cordially for sending so many copies of the book and hoping that it is going to do us all great credit, I am,

Yrs truly,

M.S.

Ps. The circulars of My Pets arrived this morn. Thank you very much for them. I shall not see many reviews of the book up here in NS. If convenient you might let me see any you get. I cd return them. I think the plain homely title of My Pets is the best we cd have had.

Dear Miss Saunders:

I have your letter of the 16th inst. acknowledging receipt of a copy of “My Pets.”

I am delighted to know that you are so well pleased with it. Like yourself, I believe that it is a very much “alive” book. It will, without any question in my mind, appeal very strongly to the children. You tell the story of your pets in a direct and simple way that is bound to win the little folks. A gentleman told me today that his daughter, who is a kindergarten teacher, read the book half through last night and said that the stories about your different pets were just what she wanted to tell her children. This is the quality that will make the book sell, just as “Beautiful Joe” sold.

The first review came in this morning. It was from the New York “Sun,” and I am glad to day was favourable. I quote it as follows:

Dear Miss Saunders:

I have your favor of the 3rd inst. enclosing clipping from “The Philadelphia Inquirer.” We will endeavor to set “The Inquirer’s” reviewers right with regard to the author of “My Pets.” I am glad that you received a copy of the Souvenir Book and found it interesting. As you say, many changes have taken place in the Society since you first came in touch with it. Dr. Griffith was a great man, and the Society has never been the same since his death. My connection with the organization dates from his time. I knew him very well, and admired him.

I have sent a copy of “My Pets” to Arthur S. Pier, Editorial Rooms, “Youth’s Companion,” as you suggest. I hope that he will give it consideration. I am writing him in reference to it. I had already mailed a copy to Mr. Chapman, Editor of “Bird Lore,” at Harrisburg. I am writing him personally in reference to it. I hope that he can give it a good review in the Book Department of the magazine.

Every review so far has been favourable except two, one in “Public Opinion,” which took serious exception to the idea of keeping birds in captivity and then letting them go, unprepared to fight their way in the world. The other was “The and Messenger,” one of our own papers published in Cincinatti, whose editor is a crusty old gentleman who takes delight in finding flaws in everything and everybody that he can. He thought that the book was very badly padded, and that if he had published it, he would have made an entirely different type page and issued it in half its present size. What he does not know about the publishing business and making of books is not worth knowing. To get an idea of his artistic ability and sense of the fitness of things, it is only necessary to look at a copy of his paper. No doubt you are acquainted with it. With best wishes, I am

Dear Mr. Roe,

Yr letter of Oct 7 was recd. Thank you for copies of letters to Mr. Pier and Mr. Chapman. They were both good. I did not see the review of My Pets in Public Opinion. By the way I thot that had been combined with the <…> Digest. I sent you the unfavourable review in the Post of N.Y. I thot I had made my position clear in the book with regard to freeing birds but if a <…> paper has this <…> perhaps I have not been explicit enough. My idea is that in general birds confined in an aviary shd not be allowed their freedom but I make exceptions. For example <…> native birds trapped say this summer and put in cages. I get them <…> <…> for a yr then let them go. I claim that they will go right back to their old habits. In the book I speak of freeing quite a number of such birds. I had not a doubt that they wd get on well. My birds have a lot of space. I had watched them fly and fight other birds. In my opinion it was wrong to keep them. I only let a few foreign birds fly away. One <…> escaped. I let the other one go immediately after to bear him company. Both these birds had flown to Nova Scotia, probably fr Florida or Georgia. It was not unreasonable to suppose that after a quiet summer by the <…> in my <…> they wd migrate. A <…> Auk and an European <…> I also let free. The former was unhappy in captivity. The was a great friend of a purple finch and I think wd follow him in his migration. It is a very common thing to bring birds fr Europe and liberate them in this country. In My Pets I state that I kept my old robin <…>. She had been a captive so long that I wd not let her free. <…> and <…> the 2 other robins I mention are also in my possession. In the book I spoke of giving them their freedom but when I came home this summer I found that they wd not eat worms except a tiny one occasionally. Naturally I wd not let them go for they wd probably have starved.

I am telling you all this [for I want you to know my position] for you can not be expected to remember every detail in the book, and I want you to be informed so as to defend my position. I don’t mind sensible criticism but what disturbed me abt the Post review was that the reviewer wd glance over that book without <…> <…> that I am devoted to birds and
wd not do anything cruel. To <…> <…> birds to an aviary life and then put them out of it as he says I do wd be an unpardonable thing.

I an assured [?] abt the editor of “The Journal of Messenger.” That matter of <…> is very curious. It is easy to read a book and say that it cd have been comprised in half the pages. So it cd but packed information is not everything. There is the style, the life of a narrative. Often condensing takes the heart out of a story. One must let an author ramble in pretty much his own way or one often spoils what he has to say. However you know this as well we I do. I am talking at critics thro’ you but I know you will be patient under the infliction for you have taken such a kindly interest in this story for birds, and believe me,

Always truly yrs,

Dear Miss Saunders:

I enclose herewith, a letter just received from Mr. Frank Chapman in response to my request that if possible, he give “My Pets” a review in “Bird Lore.” I also enclose a copy of my reply.

If you have anything further to say in response to Mr. Chapman’s letter, I would suggest that you write to him personally. I am glad to note that he is not prejudiced against the book. I have no doubt that he will be glad to say a good word for “My Pets” in the review columns of “Bird Lore.”

My dear Mr. Roe:

I am in receipt of your letter of October 7, and also of Miss Saunders’ book. I will take pleasure in reviewing this book in Bird-Lore, but the subject of pet birds is one I find much difficulty if treating, since so many of Bird-Lore’s readers are opposed to keeping birds in captivity under any conditions; a view which I just say I do not agree with.

Yours very truly,

I have your very kind letter of the 12th inst. in reference to Miss Saunders’ book “My Pets,” and note the objections which some of the readers of “Bird Lore” have to the keeping of birds in confinement.

Miss Saunders’ book has been hastily criticised by some of the New York journals on this score. You will be interested, I am sure, to read her reply to this criticism, a copy of which I enclose. The review in “Public Opinion” or “The Literary Digest” was the same as that in “The Post.” I suppose it was written by the same reviewer.

I am glad to have your further explanation of the question raised by “The Post” reviewer. I shall use this material for a note in our next “Literary Notes,” which is sent out to the press generally. A little later on, after “My Pets” has attained a good big circulation, I shall take pleasure in writing to the Editor of “The Journal and the Messenger” and call his attention to the success of the book in spite of the grave mistakes made in its manufacture, according to his review.

My dear Miss Saunders:-  

Your letter of October 30 came to hand this morning. I was very glad to hear again from you. The happy event to which you so kindly refer has not yet occurred, but it is not my fault. I had hoped to be able to be married this month, but Miss Jaynes does not think she can be ready for two or three months yet, perhaps, and of course I bow to the inevitable, happy in the prospects that are so bright.

I find through the Educational Publishing Co., of 50 Bromfield Street, Boston, that the addresses of Miss Annie J. Chase is 14 McKinley Avenue, Beverly, Mass., where I hope you may have no trouble in reaching her.

Yes, I expect to go to New Orleans, sailing from New York with Dr. Stillman and party, direct to New Orleans November 11. We reach that city November 16, so as you see it is quite a sail, which I expect will be very enjoyable as I am very fond of sea travel. We all return by rail, however, to save time. It was quite a surprise when they decided to send me, though Dr. Stillman had urged it for some time. I wish you were to be with us, and hope for a profitable as well as pleasant time. With best wishes,

Yours, cordially,

Guy Richardson.

How long have you had him? Tell him for me that there is no danger of Mr. Roe’s forgetting the great world of Animals. I love them all and it is a cheerful thought to think that they have such a staunch friend in you. Dr. Kellog to whom I showed the picture was greatly take with it. Mrs. Roe and out three children Charlie 10, […] 6 and Elizabeth 14 mos. are all staying in The Sanitarium while our house across the street is being settled. Already I am becoming very much absorbed in the new work. There is much to do in organizing my departments as there was at Phila. By no means shall I lose interest in your books. Dr. Kellog has a copy of My Pets. He is reading chapters of it to his children every evening. They are all delighted with it. It will be a satisfaction that you feel perfectly free [...] to call upon me whenever I can be of any service whatever in connection with your literary work. We have a magazine here “Good Health.” I have the oversight of it among other things. It may be that you can let us have something good for its pages. An illustrated article. My dear Miss Saunders:  

I have your note in regard to illustrations for your book, “The Girl from Vermont.” Let me say that we are proposing to illustrate from photographs, and these were furnished to me by the Playground Association of New York, with the understanding that if used they would be used in connection with your book, the purpose of which was explained to the Association. I selected eight pictures, I think the number is, and think they will work in very nicely in the volume as a whole. I have told the Secretary of the Association that we would give to it credit for the courtesy extended to us, and would also send them a copy of the book when it is brought out.

I do not know that I have answered your query as to any additional matter in regard to which I remember speaking in one of my earlier letters. I concluded not to attempt any such thing, for most likely it would not have been successful. I do think, however, as you indicate, that an appendix bearing a little more directly on the Playground and Summer School project would be an excellent thing. I would put it in somewhat different type, and not really include it as a part of the book, so that people could take it or leave it, as might appeal to them. I may say that the Playground Association sent to me quite an amount of matter in the way of circulars, etc., which I shall be very glad to forward to you for this purpose if you desire it.

In reply to yours of November 12 in regard to your book, let me say that we shall be very glad indeed to have either you or Dr. Gulick furnish a brief appendix, giving a more detailed account of the Playground Association’s work. It ought, however, to get into our hands very speedily, as the entire work is not only in type, but will in a very short time be in permanent form, that is the plates are now being made. We ought to hav then any addition that is to be made to the letter press before that process is entirely completed.

Let me say also that in addition to the eight or ten reproductions of photographs which we are going to use in the book, I have made inquiries in regard to a colored frontispiece. If the cost is not too great, we will have a taking picture of the girl from Vermont as a sort of introduction to the book. I confidently expect to get this, and I think it will add to the volume’s attractiveness. I am also seeking to have an attractive cover made, and I think, take it on the whole, we shall have a book at once comely in itself and useful in its contents. As always,

I have your favor of December 3. We will send at once a copy of “My Pets” to Prof. Craig, as requested by you. I trust that it may not only give satisfaction to the students of the University of Maine, but that it will secure a wider circulation among the friends of the students.

I thank you for your good wishes. It is very difficult not to work too hard, especially at this season, when there is so much to do. Mrs. Rowland and I are hoping to get a little respite after the holiday season, but it is problematical whether we shall be able to do so. I sincerely trust that you will have a pleasant winter, and that not only yourself, but the members of your family will continue in good health. We all have very delightful memories of our visit last summer to Halifax and Nova Scotia. With very best wishes, I am, as ever,

Yours,

The photographs have come to hand, and we shall use one or both for circularizing the new book. Were it not that I am having a colored frontispiece for said book made, I should suggest our using one of them for such purpose. As it is, however, it may be just as well to use the photograph in the circular. I think they are very attractive, and will answer the purpose of the book better than the other which we had. With all the good wishes of the Christmas season, I am,

Thank you for your letter of March 14th, enclosing $2.00. This two dollars will cover a subscription to the “Playground” Magazine for the coming year.

We are changing the general form and style of the magazine, and combining with it the proceedings of the Congress. The subscription price, beginning with the April Number, will be a $2.00 a year. There is no membership in the Association for less than $5.00 a year.

I make this explanation so that you will understand.

We are sending the playground literature to Mrs. Eldena Packard and Mrs. Amy Chapin.

With every best wish, believe me

I have your favor of January 16, with enclosure. I will write to Mr. Richardson, giving him permission to translate and publish “Beautiful Joe” in the Bulgarian language. It will be necessary for me to do this, as we are the owners of the copyright. In your reply you can say that I have done this, and that you are happy to know that your book is likely to help the cause of better treatment of animals in the East. The copies of the translation when it is made, and the book is published, can be sent to you, and we shall be very glad indeed to have one copy forwarded to us.

I trust that you and the other members of your family are having a pleasant winter. Mrs. Rowland and myself have not been particularly well during the last few months, but are better just now. We keep in memory our pleasant visit with you last summer a year.

Gentlemen:-

Your letter of July 31st was received.

I have made no arrangements, as yet, for American publication for my story, either as a serial or a book. Mr. James Muir told me that you could arrange for stndicating [sic] a serial, and also publishing in book form, in Canada and the United States too.

I have no choice as to American publishers, except the firm that has circulated my “Beautiful Joe” to the extent of half a million. I would like them to have an option on the book, but as to serial publication, I have no preference, either in the United States or Canada. So to avoid confusion, I will make no arrangements but will wait to hear what magazines or newspapers you propose for Canada and the States too, and what percentage you offer me.

The story is an almost true account of a trip I took across Canada last autumn with my brother, one of the Canadian Bank of Commerce managers. The manuscript has just been to him for criticism.

May I beg you to let me hear from you at your very earliest convenience. I have been delayed in finishing the manuscript. It should have been out before. I express the manuscript to-day.

Yours truly,

Dear Miss Saunders:-

I received your letter of August 3rd., also by express MSS. of your story. I have as yet
had no time to read same over, but it seems to me a very good story.

Regarding American publishers whom you desire to give an option, we would be very
glad for you to do so, as we would rather handle the Canadian and English rights only than all
three together. However, it’s up to yourself to make arrangements with us for whatever
territory you desire to give us.

Regarding serial publication of this book in Canada, the United States and England,
we are perfectly able to take care of same thoroughly, and we can assure you that we will be
able to get some good money for the use of the serial story of this book.

We would suggest a royalty to you of sixth per cent. (60%) on all the gross receipts for
the use of this book, from all newspapers.

We will be able to place this in about ten or twelve large newspapers, about thirty or
forty small newspapers in Canada; about twenty-five or thirty large American newspapers,
and to one good English magazine, or two or three good large English newspapers.

You must understand that the territory in England is not very large, and the
newspapers do not like to purchase what another newspaper has. It is entirely different from
Canada and the United States; perhaps you will understand this.

By using this serial story in newspapers before book publication, your book will have
a much larger circulation, it will “quasi” advertise the story when it comes out in book-form.

Please let me also hear from you regarding the royalty you desire from the book itself.

You understand that if we set the type up for use in newspapers, we will set it up in
such form as to enable us to see the same type for the books, which will save us considerable expense.

Please let me hear from you at once, and with kind regards I remain,

Yours truly,

Yr letter of the 5th was recd. I note what you say abt serial publication of my story in Canada, the U.S. and England. I know little abt serial publication being usually in haste to get a promised book to a publisher. Upon 2 occasions I had a serial <...> in the Youth’s Comp., Boston and then for a <...> price. I will trust to you to place my story in satisfactory papers or magazines in Canada, England and the U.S. I agree also for you to arrange for publication in book form in England and Canada. Later on I will make arrangements for American publication in book form. As far as I know yr proposal of 60% [?] on all gross receipts from use of the serial from all newspapers is a reasonable one and I accept it. As to book publication in Canada and Eng. I will quote you royalty arrangements that I have with 2 different firms of publishers. They pay me 10 pc. on the retail price for each copy of the first 2000 books sold, 15 pc. on the 3rd and 4th thousand and 20 pc. thereafter. Some of my books have had a good circulation in England. I will send with this some circulars that may be of use to you. I hope you will have the story well illustrated. Some of the photographs are fr a C.P.R. office out West. Respecting the eliminations from my story where references are made to the C.P.R., I can understand that conflicting political opinions in the Dominion might make it difficult for you to get the story published entire, in some papers. But, as you are doubtless aware, there is an invariable custom existing that no changes are ever made by a publisher without the consent of the author. The reason for this is obvious. The author’s reputation is at stake in the characters of the story, and the story may be very much marred by eliminations made by a publisher.

My views at present are, that I could not consent to have any important changes made in the story when it appears in book form. As regards the serial publication, I shall be very happy to consider any eliminations you may think well to propose.

In case condensation is made when the story appears as a serial, so you propose to restore the eliminations when it comes out in book form? Kindly inform me with regard to this.

An author sent recently from London by a publishing firm to write up Canada, was told to be personal, to mention names, to study railway systems. The C.P.R. will be extensively advertised in this English book.

You will remember that many of the photographs I sent are unrelated to the C.P.R.. One I am sending now has to do with an illumination in Winnipeg. It has never appeared in any publication. I think you will do well to select the best of the photographs – those of greatest human interest. Please do not forget to return the rest to me.

I hope our story is going to be a success. I wish to arrange matters for our mutual benefit.

My dear Miss Saunders:

We have taken into careful consideration the question of the publication of your MS. recently out into our hands entitled "Wandering Judy" or "Her Dear Canada." May I say first of all that the MS. as it came to us after two preliminary pages began on page 115, and the missing pages do not appear to be anywhere else in the MS. package. I call this matter to your attention so that you may know that the loss did not take place in our office. Now then as to the matter for which particularly I write. We are almost afraid, let me say, to accept your MS., interesting as it is, for publication. We are compelled at the present time to be a little bit conservative, and moreover, for some months our hands will be pretty well filled with the publication of standard works, for which we have made arrangements. May I say frankly too that we fear the circulation of a Canadian story would at the present time not be likely to strike a wholly popular chord in this country. We have no fault to find at all with the Canadian action in rejecting our proffers for reciprocity. At the same time, there is no question whatever but what the interest of the people of the United States has been somewhat diminished by such action. I question, therefore, whether the present is an auspicious time at which to launch a Canadian story. That is our feeling here; Dr. Rowland’s as well as my own. Under the circumstances, therefore, we return your MS. to you, and without question someone else will take a less pessimistic view. With pleasant remembrance of our past association I remain,

I am interested to hear that you have the MS. of your trip up toward Alaska. I should like very much to read it. You speak about having the American rights. Does this mean that you could not give us the right to publish in Canada or Great Britain? You know we are international publishers and when we get a book we want the whole thing. We have our own houses in London, Edinburgh and Toronto and are prepared to exploit books in Great Britain or Canada just as effective a way as the English or Canadian publishers.

It is very kind of you to refer to the illustrated edition of “Beautiful Joe.” It was a great pleasure to me to have the privilege of publishing this edition and I am sure that it is not often that a publisher has so appreciative an author as you were.

My dear Miss Saunders:

It was beautiful in you to write so kind a letter to me as that which I received a few days ago. I want to say that my relationships with the authors who have honored the Society with their productions during my incumbency of the office of book editor have been so pleasant and so delightful to remember that this furnishes one of the compensations I carry with me as I leave the position. Not the least pleasant of these has been my relation to you, and your association with those of other days to whom I stood so close has placed you in a peculiarly tender relation to me in recalling the past. I am glad to know that you have such a souvenir of Colonel Banes, one of the noblest, most sincere, and manly men I ever knew.

I desire to thank you for your suggestion in regard to Halifax for the coming summer. I am inclined to think that it will grow into something practical. I have often desired to visit the peninsula and it may be that opportunity will afford itself next summer. If so I shall certainly find my way to Halifax and to Carlton Street. With the pleasantest recollection of the past and with the sincerest good wishes for the future in every respect, I am,

Very sincerely yours,

Philip L. Jones, by C.B.T.

P.S. It occurs to me that for once I may exercise a woman’s prerogative and have a postscript. In it let me say that I am dictating this, away from the office and so away from the typewriter, to my assistant. I shall therefore ask her to sign the letter for me. Also I may say that I think I shall be delightfully situated in my new position and shall enjoy doing the work that will devolve upon me. I have not been well for a few days, having been visited by one of “Job’s comforters” that stuck to him closer than any one of those whose words of consolation we have recorded. I see that I am in danger of making my postscript longer than the letter and so again cease with the reiteration of my best wishes for you and yours.

P.L.J.
